What worked for you?

- Expressing of the opinions of all people and sharing inputs
- People are on time, and they did they homework. We are listening each other, and cooperate nicely.
- patience, support general alignment
- Activity with voting the app ideas was very productive.

What didn't work for you, and how would you do it differently?

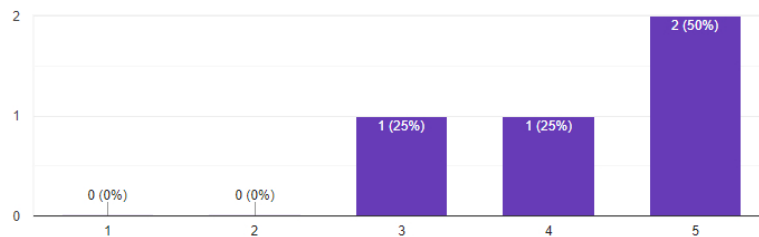

4 responses

- nothing for now
- It is a bit hard to brainstorm online
- objectives definition has been too wide and confused, with I would done differently maybe clarified better among us what is an objective
- Found difficult to plan objectives in cooperation; maybe next time we could think about them before, and then share them.
